A Comprehensive Punch To Pay Automated Solution

If you've got EBSPaySuite, you've got it all.

EBSPaySuite is the only truly integrated cloud-based solution tailored to your business for payroll, human resources, time and attendance, and benefit administration.

Keeping track of pay rates, pay codes, employee benefits, archiving employee information, calculating tax withholdings of your expatriate employees, calculating wage garnishments, GL reporting, integrating data between your human resource and payroll applications, and verifying checks for fraud can be overwhelming. Manually managing these tasks could result in loss of time, data, resources and money. Why take a chance?

Payroll is complicated. EBSPaySuite is simple.

Taking full advantage of our proven expertise in human resources and payroll management eliminates redundant, time-consuming manual processes and increases your productivity by allowing you to focus on what really matters—running your business. Whether you're getting a startup off the ground or taking a multinational to the next level, our comprehensive solutions are tailored to your needs. And with anytime, anywhere access to all-in-one cloud-based solutions, you're never too late or out of touch.

KEY FEATURES:

* Built from the ground up as a single database solution

* 100% cloud based

* Fully scalable from medium to enterprise organizations

* Robust functionality to automate your payroll polices and work rules

* Truly easy to use, the way you expect to use it

* Manage your data on your PC, laptop, tablet, or smartphone

* Multilanguage with a single click

* Deep reporting capabilities with over 100 standard reports
