

Holistic Solutions For Employees Attendance, Time And Labor Management

It's time for an upgrade.

It's easy to lose track of time, especially when it comes to the attendance, time and labor management of an entire workforce and constantly changing compliance and healthcare stipulations. EBSTime makes it easy with tools that help you go beyond tracking to see the big picture and analyze and manage your work force strategically and efficiently, whether you're running a corner store or a major corporation. And regardless of whether your employees are salary based, clock in with a mobile device or use a punch card, EBSTime enables you to collect and integrate time and attendance data seamlessly to streamline pre-payroll processing.

Can your company afford to be out of compliance?

In May, 2013 the U.S. Department of Labor recovered more than \$1 million in back wages and damages for 196 employees misclassified as independent contractors from a Kentucky-based cable installation company.

Let EBSTime help you reduce your compliance risk.
